**Budget Line /Expert Category:** Senior Non-Key Expert

**Duration of the assignment:** 15 working days (WD), from January 2020 – March 2020

#### 1. Relevant background information

Background information in relation to PLAC III project:

The scope of PLAC III project is to provide support to relevant national institutions in charge of alignment of national legal acts with the Union *acquis* and to contribute to further building of capacities of relevant national structures for successful carrying out of accession negotiations.

The PLAC III project should achieve two results:

**RESULT 1-** Enhanced compatibility of national legislation with EU legislation and its effective implementation

**RESULT 2 -** Enhanced capacities of the relevant national structures for successful carrying out of accession negotiations

In general, the project aims at fostering the process of accession negotiations of the Republic of Serbia by supporting the effective alignment of national legislation with the Union *acquis*

and its implementation and by further building the capacities of involved carriers of the EU integration process in the Republic of Serbia. After completion of screening process in 2015, Serbian public administration has entered into much more demanding and obliging exercise of accession negotiations, whereby each step and every decision should result in approaching actual membership in the EU. For this scenario to happen in accordance with planned dynamics, preparedness, adequate institutional capacity of public administration with high competent staff is of crucial importance. In the core period of the negotiations, PLAC III Project shall support domestic line institutions and the negotiating structures both in performance of quality operational work in relation to harmonisation process and in the effective coordination during various stages and phases in the process for different negotiation chapters.

## **2. Background information in relation to Chapter 9 – Financial Services – Capital Markets and Investment Services**

Negotiating Chapter 9 – Financial services is of crucial importance to the Republic of Serbia as it is to ensure financial stability and adequate consumer and investor protection. Serbia has opened the negotiations on Chapter 9, which means that it has reached a satisfactory level of alignment for securities markets and investment services to open negotiations and that it partly applies the *acquis* in this area. However, the regulation in the field of financial services has been evolving rapidly during the last years. Phasing in of the new *acquis* is an on-going process. The EU has encouraged Serbia to continue the process of alignment with the *acquis* and its effective implementation and enforcement.

Moreover, the EU progress reports on Serbia for 2018 and for 2019 both state that Serbia is moderately prepared in the area of financial services. Some progress was made in this field, especially in the field of banks and financial conglomerates, but more work is required to implement the financial services *acquis*.

Furthermore, the EU Common Position for Chapter 9: Financial services states that “regarding the *acquis* on prospectuses, Serbia is largely aligned. Full alignment will have to include the cross-border activities and foreign issues, as well as the incrimination of the attempt to act unlawfully”.

Serbia’s legislation is not yet aligned with Regulation (EU) 2017/1129 on the prospectus to be published when securities are offered to the public or admitted to trading and repealing Directive 2003/71/EC (hereinafter: Regulation (EU) 2017/1129 on the prospectus), applicable as of July 2019, according to the NPAA Third Revision.

Considering the complexity of the issue, the relevant target beneficiaries would highly benefit from the expert assistance in providing technical and legal advice on the substantial changes made by new *acquis* and drafting of amendments to the relevant bylaw / drafting of the new bylaw.

There is no overlapping between this project or any on-going and/or planned assistance projects for the activities covered by this ToR.
